

■ Herbs Ain't Universal: Zodiac Codes & Rituals

Lead Magnet Mini eBook

■ Introduction

This isn't your average zodiac guide. This is raw, unfiltered herbal truth. Most books hand you generic love spells and money baths that backfire because they ignore the zodiac codes. Each sign has herbs that amplify them, herbs that drain them, and herbs that expose their shadow. This guide cracks open that reality — so you stop wasting time and start walking sovereign.

■ Leo — The Crowned Flame

Essence: Leo is fixed fire, ruled by the Sun. They govern heart, spine, and crown. Leo herbs fuel confidence, crown power, and radiant aura. Used sloppy, they inflate ego or drain pride.

Power Herbs:

- Rosemary – Solar clarity, crown shine.
- Sunflower – Radiance, aura protection.
- Cinnamon – Fire for abundance.

Clash Herbs:

- Rue – Saturn herb that dims Leo shine.
- Mugwort – Clouds crown, weakens focus.

DonDada Teaching: “You are the Sun. Stop begging to be a candle.”

■ Taurus — The Rooted Builder

Essence: Taurus is fixed earth, ruled by Venus. Governs throat + neck. Lovers of comfort, sensuality, stability. Herbs ground and sweeten, but the wrong ones can make them lazy.

Power Herbs:

- Rose – Venus love + softness.
- Peppermint – Clears throat, freshens voice.
- Thyme – Courage + steady growth.

Clash Herbs:

- Cayenne – Burns throat + voice.
- Rue – Harsh, dries Venus flow.

DonDada Teaching: “Comfort without movement is a coffin.”
